

RICHARD KWAKU OPOKU

Full-Stack Developer | React.js * Node.js * PostgreSQL * Cloud Security

+233 55 150 0736 * richardkwakuopoku06@gmail.com * Tarkwa, Ghana

Portfolio: richardkwakuopoku.site * GitHub: github.com/iamroidev * LinkedIn: in/richardkwakuopoku982

TECHNICAL SKILLS

Frontend Development:	JavaScript (ES6+), TypeScript, React.js, Next.js, HTML5/CSS3, Tailwind CSS, Responsive UI, State Management
Backend & REST APIs:	Node.js, Express.js, RESTful API Design, JWT/Session Auth, WebSockets, Paystack API, Middleware
Databases & Storage:	PostgreSQL, MongoDB, SQLite / Turso, Relational Schema Design, Parameterized SQL Queries, Indexing
Cloud, DevOps & Tools:	AWS (EC2, S3, IAM, Amplify, Lambda), Linux / Bash, Git / GitHub CI/CD, Postman, Nginx
Security & Best Practices:	OWASP Top 10 Web Defense, SQL Injection Prevention, Secure Authentication & Authorization, CORS

PRODUCTION SOFTWARE ENGINEERING PROJECTS

VoteEQ - Live High-Concurrency Voting & Ticketing Web Platform

<https://voteeq.online>

Stack: React.js, Node.js, Express, PostgreSQL / Turso, Paystack Webhooks, AWS EC2, WebSockets

- Architected and deployed a live nominee voting and ticketing application adopted officially by the UMaT CS Student Association.
- Engineered backend REST APIs with resilient ACID transactional integrity, processing 7,800+ real votes and ticketing settlements.
- Integrated Paystack payment gateway with secure cryptographic webhook verification, idempotent payment handling, and real-time WebSockets.
- Hardened production deployment on AWS EC2 with Nginx reverse proxy, HTTPS encryption, environment secrets, and rate-limiting.

Scholar - Academic Management & Student Records Portal

<https://schorla.vercel.app>

Stack: Next.js, TypeScript, React, REST APIs, Role-Based Access Control (RBAC)

- Built a responsive academic portal featuring role-based authentication, student record indexing, and dynamic dashboard views.
- Implemented clean modular frontend architecture in TypeScript with robust API error handling and input validation.

InsightFlow - Real-Time Analytics & Data Dashboard

<https://appinsightflow.vercel.app>

Stack: React.js, Node.js, REST APIs, Dynamic Client-Side Data Filtering

- Developed a high-performance web dashboard parsing dynamic metric streams with customizable client-side visualization filters.

WORK & LEADERSHIP EXPERIENCE

AmaliTech - AWS re/Start Cloud Practitioner Program

Jan 2026 - Apr 2026

Cloud Practitioner Trainee & Intern

- Completed 600+ hours of intensive training in cloud infrastructure, Linux systems administration, relational databases, and Python automation.
- Collaborated in a 4-person team to build a serverless hospital queue application using AWS Cognito auth, Lambda, API Gateway, and DynamoDB.

AmaliTech Coding Club, UMaT

Jan 2026 - Present

Club Organizer & Technical Peer Mentor

- Organized developer workshops, code reviews, and programming challenge sessions for over 100 engineering students.
- Mentored junior developers in Git/GitHub workflows, JavaScript fundamentals, API integration, and clean code hygiene.

UMaT Cybersecurity Club

Jan 2026 - Present

Active Technical Member

- Participated in weekly practical labs on network reconnaissance (Nmap) and database vulnerability assessments (SQL injection defense).

EDUCATION & CERTIFICATIONS

University of Mines and Technology (UMaT)

Expected June 2027

BSc Computer Science and Engineering - Year 4 (Final Year) | CWA: 80.87 / 100 (First Class Honours)

- Relevant Coursework: Data Structures & Algorithms, Database Systems, Software Engineering, Operating Systems, Web Programming, Cryptography.

Certifications: AWS Certified Cloud Practitioner (CCP) | ISC2 Certified in Cybersecurity (CC) | Machine Learning (Stanford / DeepLearning.AI)
