Profile

Final-year Computer Science & Engineering student specializing in cloud security and production web systems. AWS Certified Cloud Practitioner and ISC2 Certified in Cybersecurity, with 600+ hours of AWS training (AmaliTech re/Start). Built and deployed a live platform that processed 7,800+ verified payments on hardened AWS EC2 infrastructure.

Technical Skills

Cloud & Infrastructure AWS (EC2, S3, IAM, VPC, Lambda, Cognito, Amplify), Linux/Bash, Nginx

Security OWASP Top 10, Nmap network scanning, SQL injection mitigation, IAM least privilege

Backend & APIs Node.js, Express, TypeScript, REST design, JWT/session auth, WebSockets, Paystack API

Frontend React, Next.js 15 (App Router), Tailwind CSS, responsive mobile-first UI

Data & Tooling PostgreSQL, SQLite/Turso, MongoDB, Git/GitHub CI/CD, Postman, ACID transactions

Featured Projects

VoteEQ: Live Voting & Ticketing Platform

voteeq.online

React, Node.js, Express, PostgreSQL/Turso, AWS EC2, Paystack

- Built and deployed the platform officially adopted by the UMaT CS Student Association.
- Processed **7,800+ live transactions** with Paystack webhook signature verification and idempotent database locks.
- Added real-time leaderboards over WebSockets; hardened EC2 with SSL, rate limiting and CORS controls.

KaiRova: Streetwear E-Commerce Site

kairovaclothing.com

Next.js 15, React, TypeScript, Tailwind CSS, Vercel

- Built a responsive storefront with category filters, lookbooks and reusable components.
- Used App Router server components for fast page transitions on mobile.

Scholar: Academic Records Portal

schorla.vercel.app

Next.js, TypeScript, React, REST APIs, RBAC

- Built an admin workflow portal with role-based access control and dynamic data queries.

Experience & Leadership

Cloud Practitioner Trainee & Intern

Jan 2026 – Apr 2026

AmaliTech, AWS re/Start Program

Takoradi / Online, Ghana

- Completed 600+ hours of cloud training covering AWS architecture, Linux administration and Python automation.
- Configured VPCs, multi-tier subnet routing, security groups and S3 access logging with least-privilege IAM.

Club Organizer & Technical Lead Mentor

Jan 2026 – Present

AmaliTech Coding Club, UMaT

Tarkwa, Ghana

- Ran bootcamps, algorithm labs and code reviews for **100+ engineering students**.
- Mentored junior developers on secure coding, Git/GitHub workflows and REST API design.

Active Technical Member

Jan 2026 – Present

UMaT Cybersecurity Club

Tarkwa, Ghana

- Weekly hands-on labs on host discovery, Nmap port scanning and SQL injection mitigation.

Teaching Assistant & Peer Tutor (C#, Data Structures)

Dept. of Computer Science and Engineering, UMaT

2025 – Present

Tarkwa, Ghana

- Tutored undergraduates in object-oriented programming, algorithmic complexity and databases.

Education & Certifications

BSc Computer Science and Engineering

University of Mines and Technology (UMaT)

2024 – Expected June 2027

Tarkwa, Ghana

- First Class Honours, **80.87 CWA**. Coursework: Operating Systems, Computer Networks, Databases, Cryptography, Software Engineering, Embedded Systems.

Certifications

- AWS Certified Cloud Practitioner ([Credly verified](#))
- ISC2 Certified in Cybersecurity (CC)
- Machine Learning Specialization, DeepLearning.AI / Stanford ([verified](#))
- Google Cybersecurity Certificate, Coursera / One Million Coders (in progress)
